

23.6" LCD Videodisplay with integrated Mediaplayer

The affordable 23.6" Videodisplay MBVI-R2360 brings you the fun and high quality video presentation of advertising information. Simply insert a data storage device (USB stick, microSDHC card) into the slot, or connect an HDMI source, and your presentation will run continuously. After power-on the system automatically plays the stored files in endless operation.

Applications: Superstores, Shop Windows, Museums, Travel Agencies, Banks, Video Art, Restaurants, etc.
