

DIO

headphones

m lit r

DIO is a robust all-rounder which is suitable for continuous use. Its sturdy, metal-plated cable ensures that it works without any problems and prevents wear and tear.

The DIO headphones are specially adapted to the requirements of exhibition, trade fair and sales installations. The functional and stable construction is designed for continuous use and guarantees a long service life. The mini-

ature jack enables mobile audio devices to be activated instantaneously, and the low impedance of 35Ω ensures excellent sound quality. The headphone size can be quickly and easily adjusted using the dynamic adjustment unit

when on the head. DIO is a one-time purchase for long-term use: earphones and loud speakers, as well as brackets and adjustment units, are available separately and can be replaced.

Technical data

HANDSET	
Weight (excl. cable)	220 g
TUBE	
Total length	1.40 m
Diameter	7 mm
Port	3.5 mm miniature jack (stereo, straight)
LOUDSPEAKERS	
Impedance	35 ohms
Max. loading capacity	0.1 watts

More products

The 6.3 mm **stereo jack adapter** easily connects the DIO headphones to all standard audio devices.

The **wall bushing** facilitates the precise installation and fixes the armoured cable in place when the headphones are used in a stationary position.

The **hook** designed for the DIO headphones ensures that they can be safely hung up.

AP 01 is a versatile interactive audio player. The stand-alone device has a plug'n'play functionality and perfectly combines with our DIO headphones.

In our manufacturing workshops in Berlin Kreuzberg we assemble the AP 01 audio player, produce the USO, VIA and PLUX handsets and construct exhibits. We take on every processing step from concept, design, prototype manufacturing, production, assembly, programming and commissioning to maintenance.
