movebox UHD 2000 miniature media player

The new movebox 2000 miniature media player is a full-featured UHD 4K media player. It delivers an impressive performance with its brilliant 4K UHD video output (60 frames per second - resolution 3840x2160 pixels) and its seamless playback of multiple files in succession. The new movebox UHD 2000 media player has been developed for maintenance-free, continuous operation for video or audio installa-

tions. The media player supports the playback of video clips, music files and digital images directly after the power supply is connected (autostart function). SDHC memory cards or USB sticks can be used as storage media. Alternatively, the device can be supplied with power via an existing USB interface or mobile power bank using the USB power supply cable included in the scope of delivery.

TECHNICAL DATA

Item CRY-MB-UHD-2000

Particular properties
Native 4K decoding (3840x2160p60)
Video codec H265
designed for continuous operation 16/7
plays image, video and audio files in a continuous loop
Autostart function (automatic playback after connection to the power supply)
seamless playback of multiple files in succession
No additional software required!
3.5 mm jack headphone connection
CINCH video connection
Data storage (FAT32 / NTFS / exFAT)
SDHC memory card / USB stick
Supported video formats
MP4, MOV, VOB, AVI, MPEG1/2, MKV, TS, M2TS, WMV
Supported video resolution
1920x1080 (60fps) / H264_H265 3840x2160 (60 fps)
Supported image formats (10k)
JPG, PNG, GIF, BMP
Supported audio formats
MP3, FLAC, OGG, APE, ACC
Video resolution via jack plug (analog)
PAL 720x576 / NTSC 720x480
Warranty
2 years

Accessories
Power supply unit 100-240 VAC (5 VDC)
Remote control
USB power cable
CINCH video & audio cable
Dimensions
W/H/D 103 (79) x 73 x 25 mm
Connectivity
HDMI
USB 2.0
CVBS, 3.5 mm jack plug
SDHC memory cart slot
5 VDC power connection
Power connection
5 VDC / 2 A
Weight
Weight 128 grams

SCOPE OF DELIVERY

Crystal Display Electronics AG is an innovative and customer-focused development and trading company in the fields of electronic media and industrial electronics. From prototype construction to series development, we offer you the highest degree of flexibility and perseverance in finding solutions. We attach great importance to straightforward cooperation characterised by mutual trust.
